

## Discharge Critical Element Pathway

Use this pathway *to evaluate compliance with requirements for Admission, Transfer and Discharge Rights (F622, F623, and F626—only when a resident is not permitted to return after therapeutic leave). For concerns related to not permitting a resident to return after a hospitalization, use the Hospitalization and/or Discharge (F660 and F661) Critical Element (CE) Pathways. Facility-initiated emergency transfers or discharges to acute care should also be reviewed using the Hospitalization CE Pathway.*

**Review the following in Advance to Guide Observations and Interviews:**

- Review the most current comprehensive or most recent quarterly (if the comprehensive isn't the most recent) MDS/CAAs for Sections A – *Type of Assessment and Discharge Status (A0310F – 10 or 11, A0310G, and A2100)*, C – Cognitive Patterns, G – Functional Status, and Q – Participation in Assessment and Goal Setting.
- Physician’s orders (e.g., medications, treatments, labs or other diagnostics, and the discharge order – planned or emergent).
- Pertinent diagnoses.
- Care plan (high risk diagnoses, behavioral concerns, history of falls, injuries, medical errors, discharge planning to meet the resident’s needs including but not limited to resident education and rehabilitation, and caregiver support and education).
- If investigating a complaint related to discharge, if there are other residents who had further investigation marked for the complaint care area, the team is required to sample three residents. If there weren't any other residents who had concerns regarding the complaint allegation, the team is only required to investigate the complaint resident. If concerns are identified, you may need to expand the sample and ask the facility for a list of facility-initiated discharged residents, as necessary. If the facility cannot provide a list of facility-initiated discharged residents, ask for a list of all discharged residents for the last three months.*

*Ask facility staff (e.g., Director of Nurses, Social Worker, Attending Physician) whether the discharge was facility- or resident-initiated. Investigate and verify the staff response as to whether the discharge was facility- or resident-initiated using the columns below. For example, if the facility indicates a discharge was facility-initiated, start with Column A.*

<b><i>NOTE: Interviewing the resident and/or his or her representative is a critical component of confirming whether the discharge is resident- or facility-initiated. If the resident is no longer in the facility, attempt to contact the resident and/or resident’s representative.</i></b>

## Discharge Critical Element Pathway

---

### Critical Element Decisions:

1) *For a resident-initiated, planned discharge*, did the facility:

- Involve the IDT, resident and/or resident representative in developing a discharge plan that reflects the resident's current discharge needs, goals, and treatment preferences while considering caregiver support;
- Document that the resident was asked about their interest in receiving information about returning to the community;
- Assist the resident and/or resident representatives in selecting a post-acute care provider if the resident went to another SNF (skilled nursing facility), NH (nursing home), HHA (home health agency), IRF (inpatient rehab facility), or LTCH (LTC hospital); and/or

If No, cite F660

*N/A, this is a facility-initiated discharge.*

2) *For a resident-initiated, planned discharge*, did the facility:

- a. Develop a discharge summary which includes a recapitulation of the resident's stay, a final summary of the resident's status, and reconciliation of all pre- and post-discharge medications?
- b. Develop a post-discharge plan of care, including discharge instructions?

If No, cite F661

*N/A, this is a facility-initiated discharge.*

3) *For a facility-initiated discharge*, does the resident's discharge meet the requirements at 483.15(c)(1) (i.e., *discharge is necessary* for the resident's welfare, and the resident's needs could not be met in the facility; the resident no longer requires services provided by the facility, the health or safety of the individuals in the facility was endangered, non-payment, or the facility no longer operates). *Does evidence in the medical record support the basis for this resident's discharge?*

If No, cite F622

*N/A, this is a resident-initiated, planned discharge*

4) *For a facility-initiated discharge*, was required discharge information *per 483.15(c)(2)(i)-(ii)*, documented in the resident's record and *appropriate information* communicated to the receiving facility *per 483.15(c)(2)(iii)*?

If No, cite F622

*N/A, this is a resident-initiated, planned discharge*

## Discharge Critical Element Pathway

---

- 5) For a *facility-initiated discharge*, *were* the resident, resident representative, *and ombudsman* notified of the discharge in writing and in a manner they understood at least 30 days in advance of the discharge, *or as soon as practicable if the discharge meets one of the exceptions at 483.15(c)(4)(ii)*? Did the notice meet all requirements at 483.15(c)(3) through (6) and (c)(8)?

If No, cite F623

*N/A, this is a resident-initiated, planned discharge*

- 6) *After a resident's therapeutic leave, did a facility permit the resident to return? If No, was there a valid basis for the discharge according to 483.15(c)(1)?*

*If No, cite F626*

*N/A, the resident's transfer or discharge was not related to therapeutic leave*
